To Whom It May Concern:

We would like you to consider this letter on why the dams shouldn't be breached. We live in Pomeroy WA and it will effect this town considerably because we are a farming community. It will make some farmers go out of business because they couldn't ship their grain on barges because the river would be to low and the farmers couldn't afford to truck grain to market. If farmers have to move to contractors, will run out business, chemical plants won't have farmers to by chemicals and lots of other people will lose their jobs due to not having enough business. So if all this happens Pomeroy will become a ghost town. This will also effect many, many other towns.

Sincerely,

Scott Williams,

Ben Slaybaugh
